

please do not allow those whiners to violate my privacy. i signed up for that list for a reason, reason being i like my privacy and i dont want their phone calls, mail or anything pertaining to them or their products/services. signing up for the no call list was one of the best decisions i have made, i am no longer interrupted by annoying people trying to sell me crap, and i enjoy the privacy that i now have. so please make no changes to the no call list or its laws.
